

Epiphan Video

Product catalog

Live video production

High-performance hardware for video capture, streaming, and recording.

Epiphan Pearl Nano™

Use as a reliable, 4K-capable video distribution device, portable contribution encoder, or streamer and recorder add-on to a full production switcher. Now with H.265/HEVC video compression.

4096 × 2160 - 60fps

Epiphan Pearl Mini™

Simplify your lecture capture or live event production. Record, stream, and switch multiple HD inputs simultaneously.

1920 × 1200 - 60fps

Seamless CMS support for Kaltura, Panopto, and YuJa

This integration allows for multi-camera scheduled VOD events, ad hoc events, and webcasting.

Epiphan Pearl-2™

Powerful, all-in-one live production system with 4K HDMI, 12G SDI, NDI, and the capacity for six simultaneous 1080p channels.

4096 × 2160 - 30fps

Epiphan Pearl-2™ Rackmount

All the same features as Pearl-2 but designed for installation in a rack.

Easily integrate with Crestron AV systems

Using the Crestron-developed Control Module, integrating Pearl into a Crestron AV system is a snap.

USB capture cards

Capture any video source to USB.

Epiphan AV.io 4K™

Capture 4K over HDMI in perfect fidelity or use hardware scaling to capture any resolution needed for your application.

4096 × 2160 - 30 fps
1920 × 1080 - 60fps

Epiphan AV.io HD+™

Capture 1080p video from any HDMI camera or device with nearly zero latency, bringing in audio through HDMI, the 3.5 mm input, or both.

1920 × 1080 - 60fps

Epiphan AV.io SDI+™

Capture 1080p video from any SDI camera or device with nearly zero latency, bringing in audio through HDMI, the 3.5 mm input, or both.

1920 × 1080 - 60fps

Internal capture cards

High performance and easy installation.

Epiphan DVI2PCle Duo™

Internal PCIe capture card captures lossless video from dual-link and single-link DVI video sources, as well as VGA, HDMI, and SDI video sources with audio from SDI and HDMI sources.

2560 × 1600 - 85 fps
2048 × 2048 - 85 fps

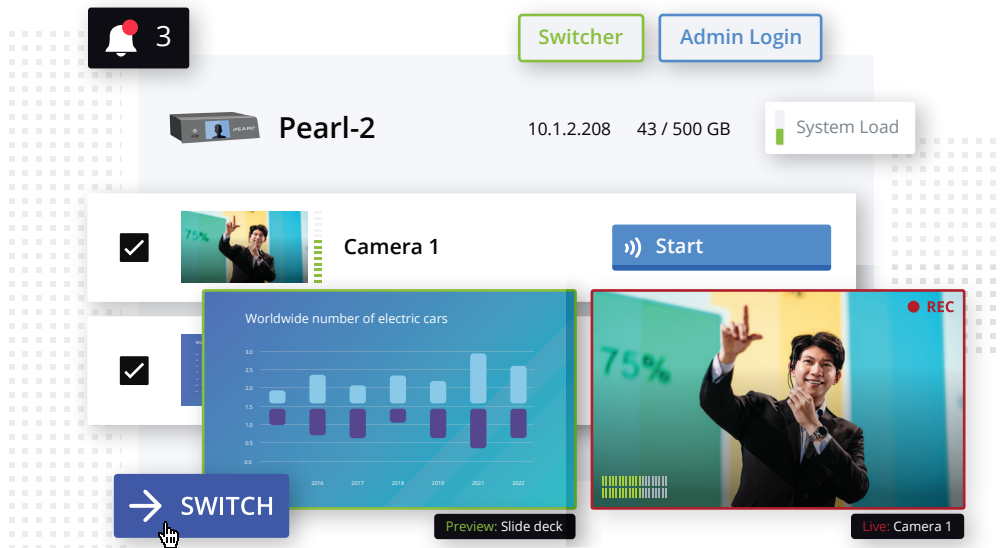

Epiphan DVI2PCle AV Kit™

Extend the functionality of your DVI2PCle Duo capture card and add even more video and audio inputs.

Cloud services

Innovative services to streamline and scale your production.

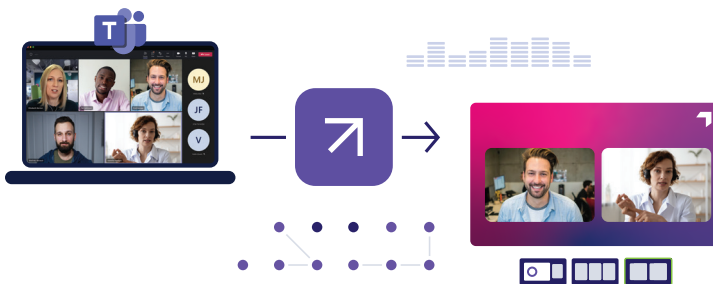

Make video magic anytime, anywhere

Control Pearl systems from anywhere with Epiphan Cloud's fully remote streaming and recording, monitoring, and switching. It's the easiest way to create broadcast-quality content from a distance.

Build a better hybrid workflow

Epiphan Unify™ enables you to remotely record, switch, mix, and restream 4K video from anywhere. Flexible and open platform, Unify will work with any production environment.

Produce broadcast-quality content with Microsoft Teams

Epiphan Connect bridges the gap between the convenience of video conferencing and the quality of broadcast.

Live transcription

Simplified real-time automatic transcription.

Epiphan LiveScript™

Real-time automatic transcription with built-in professional audio inputs, making it easy to achieve accurate AI-based transcription.
