

Lecture Recorder x2™

Lecture Recorder x2 is Epiphan's portable recording and streaming device for presentations, lectures, and web-based training. Capturing the presenter's camera and audio along with presentation slides or videos is quick and easy.

Capture, record and stream Full HD video at 30 frames per second with support for connecting directly to Content Delivery Networks (CDNs) enabling large numbers of remote viewers to participate from anywhere.

Lecture Recorder x2 may be operated as a standalone appliance or easily integrated into content management systems using our RS-232 and HTTP APIs. Its compact form factor and silent operation make it suitable for a wide range of environments.
