

VGADVI Recorder Pro DL (compact) to Epiphan Pearl

As technology changes, Epiphan periodically discontinues a product and substitutes it with a successor product. The following product comparison gives our customers the confidence to migrate from VGADVI Recorder Pro DL (compact) to [Pearl](#), its successor product.

Discontinued as of
January 1, 2015

Pearl
Epiphan's latest streaming
and recording product

2048×2048	15	30
3840×2048	-	10
*Processor:		
Core i5	-	✓
Core i7	✓	-

FEATURES AND BENEFITS OF MIGRATING TO PEARL

- ✓ Touch screen for confidence monitoring and basic operation
- ✓ Supports professional TRS audio (stereo)
- ✓ Dedicated inputs for SDI, VGA and HDMI
- ✓ Supports a pass through port for confidence monitoring
- ✓ Supports 3840×2048 output resolution
- ✓ Simultaneously stream 2 HD sources

*Limitation: While Pearl meets and often exceeds the functionality of its predecessor product, VGADVI Recorder Pro DL (compact), you may experience a negligible difference in performance since Pearl runs on a Core i5 processor and VGADVI Recorder Pro DL (compact) runs on a Core i7 processor. If you require a high performance processor, consider Epiphan's [VGADVI Recorder Pro DL](#) (rackmount) system.
